

Source Code

baseline_model_1.ipynb - contains the code for baseline model 1.

baseline_model_2.ipynb - contains the code for baseline model 2a, model 2b and model 2c.

proposed_model.ipynb - contains the code for the proposed model.

hypothesis_1.ipynb - contains the code corresponding to hypothesis 1.

hypothesis_2.ipynb - contains the code corresponding to hypothesis 2.

Instructions to run

1. The folder has the '.ipynb' files with the baseline models and proposed model trained for the project.
2. The folder contains the dataset in '.csv' files.
3. Upload this folder to Google Drive under the Colab Notebooks Directory.
4. Run each '.ipynb' for results mentioned in the report.

Dataset

NLP.csv - contains the training set.

NLP_test.csv - contains the testing set.
